2. Noted that he would be attending a meeting on Monday of the NSAM-156 Committee to discuss the possibility of declassifying the existence of satellite photography. Declassification would be necessary in connection with an arms-limitation agreement with the USSR; but the problem was how to do it, what to say, and what kind of controls would be necessary to protect the product. He asked that the offices give some thought to the nature of controls and, also, how such a declassification might affect S&T's way of doing business.

3. He passed on remarks by the DCI to the effect that it was not in the best interests of the Agency for employees to take an active role in public at political-social functions.

Assistant Deputy Director:

1. Asked for suggested topics by Tuesday in connection with the next Foster briefing.

2. The S&T Panel was now scheduled to meet on the 24th and 25th. FMSAC and OSI should consider what high-lights to brief on. Various computer uses will be discussed as well as the status of [] An agenda will be published.
